2 Bridge typically operates via flexible and cross-functional teams, aligned to the project need. Our broad and multidisciplinary expertise allows to address the most complex and challenging tasks during development. For more information, please visit: www.2Bridge.be.

Job description

We are looking for a junior Project Manager Chemistry Manufacturing and Control (CM&C) with a keen interest to learn about managing projects within the domain of CM&C of early stage product development.

The CM&C project manager will be involved in the execution of CM&C development programs with support and under the guidance of a senior CM&C professional.

As representative of the CM&C team, you will manage a wide variety of CM&C activities covering either oversight on Drug Substance or Drug Product activities at CMOs and will thereby get the opportunity to broaden experience quickly.

Key activities of a CMC project manager are:

- Support the creation and implementation of CM&C related aspects of a development strategy;
- Execute agreed CM&C strategy under support of a senior CM&C leader;
- Support the identification and selection process of CM&C service providers;
- Prepare scientific and technical documentation within the area of CM&C;
- Support identification and mitigation of CM&C risks;
- Support the delivery of clinical and launch drug supplies in accordance with development plans;
- Support of lifecycle projects within CM&C;
- Ensure compliance with applicable regulations and guidelines throughout activities;
- Develop / improve of procedural documents and processes.

You will work in a non-hierarchical environment that highly values teamwork and where you will have the freedom to shape your role.

Qualifications/Desired profile

- MSc/PhD in Bio-medical sciences, Bio-engineering, Biology, Industrial Pharmacy, Chemistry, or equivalent.
- Ideally 1-3 years of prior experience within product development, registration and/or within a GMP production environment of large/small molecules highly recommended, although industry-starters with the right mind-set will also be considered.
- Some knowledge and/or interest in pharmaceutical legislation (ICH/GMP,...).
- Enthusiasm with a keen interest to learn new things.
- Team-player with the ability to work independently.
- Analytical, pro-active, flexible and with an eye for detail.
- Interested in working in a multidisciplinary team.
- Good communication skills.
- Fluency in English (especially in writing) is a must.

How to apply

CV, motivation letter where you:

1. Introduce yourself
2. Explain why you are interested in the job
3. Outline why you think you are the right candidate

Interested? Please send your motivation letter and CV to hr@2bridge.be.
